A great day for the swallow family & the swifts! Unfortunately, Claire was busy indoors and I was somewhat busy outdoors. Purple Martins

flew across all day, N-SW and I did not think I a tally until hundreds had gone by. About 7:00 P.M., they began coming from W NW, flying due East, about 350-400. The encouraging note was the large numbers from N-NE, for the first time since 1972 —

All disappeared into the distance, so I do not think there was any duplication

8-26-75 Tues. 72°-91°
Sunny + hot, humid.
SW breeze 5-15 mph, all day. Lots of thunder + lightning 7:30 — 20 min.

* ~~At~~ About 1:30 P.M., one Red-shoulder sat on a tree near Vasquez', exchanged calls with one in the air — then they circled playfully together, to be joined by a flock of 5 from the NE. After 10-15 min., the 5 moved on to the S.W. The two remained here all afternoon, calling — apparently our resident birds. For a while, two TVs circled with them.

Johnston's report 9 Bobwhite

Woodcocks - Mrs. Hunter

* / Nashville W. (Smm) / Chipping Sp.
/ Redstart ♀ / Chimney Swifts
/ Wood Ducks

/ Grosbeaks included ad. ♀
& Imm. ♂ eating pokeberries
together, and two Imm.
males together in a small
tree.

Mrs. Jack Hunter reports
that "in late May or early
June" a passerby noted
an adult Woodcock
in road, killed by a car.
Two downy young, with
primaries just coming
out, were with adult.
He gave them to Hunter.
Mrs. Hunter put them
in a cage & fed them
on worms, baby vitamins,

Autumn - 11:55 A.M.

& high-vitamin cat food.
One developed weak legs &
eventually died. When other
could hunt for itself she
released it at Dr. Mowers's
"Woodend" pond, where he
had seen other woodcocks.

*

9-13-75 Tues., 55°-59°

1 Cooper's Hawk NE-SW 4:45
2 Merlins NE-SW 4:50 PM

Jay flights (direct - NE to SW)
on in earnest now!
At 4:25 P.M., flock of Broad
wings came in from NNE -
CLE & I counted to 71, when a
flock of about same no. swept
in behind and joined first -
about 150 total in a swirling
flock for several minutes -
then caught an air current
and sailed away to SW. Good
proportion of immature
birds
Cooper's Hawk low over meadow.

✓ 2 Merlins low over meadow— at first thought they were Kestrels.
✓ Osprey low across back yard.

9-28-75 Sun. 51°-69°
